Subject: Please include as late comments for hexavalent chromium docket(H054A)

Dear Mr. Davidson:

The attached documents indicate that

- a. the EU reduces occupational exposure to Cr(VI) using restrictions upon products containing the compound
- b. Britain has reacted to the EU directives by proposing its own restrictions upon electronic equipment
- c. the EU has planned to reduce its Cr(VI) PEL for some time.

Please add these to the docket.

Thank you

Peter Lurie
