SAFETY BULLETIN #17

ASBESTOS GLOVES

Asbestos gloves are no longer available in Stores. Another glove is available which has proven adequate on most of our jobs where hot objects are handled. The gloves may be ordered as follows:

<u>Caption</u>	<u>Location</u>	<u>Description</u>
10	13135	Glove, #906 Heat Resistant

All areas which have been using asbestos gloves should check supply cabinets and replace any asbestos-containing gloves with the aforementioned glove. This should be accomplished by 11/1/77.
