YOUR REF.

26th April, 1944.

Dr. Robert A. Kehoe,
College of Medicine,
University of Cincinnati,
Ohio, U.S.A.

Dear Bob,

I attach original of a letter received from Anglo-Iranian, together with enclosures referred to therein.

I was much disturbed to learn, on my return, that the position in Alexandria was still bad and that there had been some four or five additional deaths since the time of your visit there. I understand from Laughland that he has sent you full details on these cases, all of whom I imagine had been exposed for some time previous to your visit. Alexandria continue to send us pathological samples which we pass on to Dodds for analysis and I understand again from Laughland that he has already sent you copies of the analytical results received to date.

Upon checking with Footner we are both somewhat uncertain as to whether these new deaths have occurred since Alexandria put into effect the modifications to their can-filling technique recommended by yourself, or whether they are a carry-over from the "bad old days"; the latter would seem probable. However, Footner is checking this and will let me know as soon as he hears from Alexandria.

I was very sorry not to have seen you again before I left the States, but as usual, my stay was a somewhat hectic one, and for a variety of reasons I was anxious to get back as quickly as possible. My return trip was both speedy and comfortable.

With all best wishes and kind regards,

Sincerely yours,

T. R. A. Bevan.
