Subject: RE: Inquiry on AFFF from DoD - Australia

John,

I could use some help with drafting a response. I look to NRL as the experts on AFFF.

I really don't have an answer to your questions/concerns below.

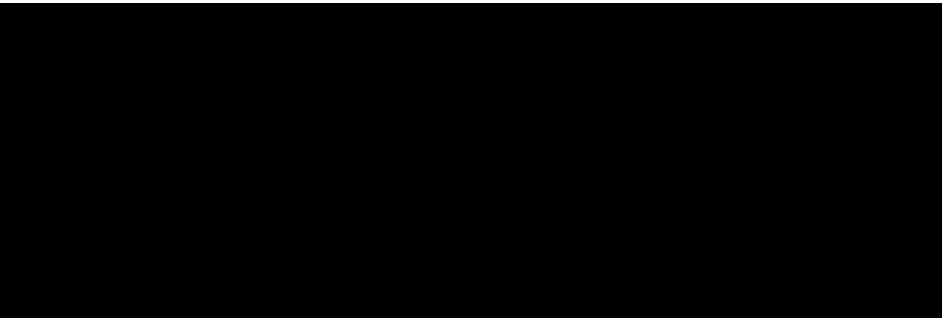

v/r,

Steve Fletcher, P.E.
Fire Protection Engineer
Damage Control, Recoverability & CBD Branch

John,

Just FYI at the moment. Please do not respond to them.

Subject: FW: Inquiry on AFF from DoD - Australia

Good Morning Bill,

I am no longer the engineering manager for AFFF since taking over the Damage and Fire Recoverability Warrant. I am forwarding your request to Mary Hunstad in my group (cc'd). She is the technical warrant for ship fire protection systems which includes our AFFF.

Hopefully she or someone in her tech pyramid can provide assistance.

Thanks,

Brian

One more time - got a bounce back

Gentlemen;

I received the attached inquiry from DoD Australia (at the Assistant Secretary level) and asked Paul Yaroschak for assistance. He, in turn, recommended each of you as the expert on the topic.

I would appreciate anything you might have to offer to our Australian friends. Either send to me or directly to Mr Healy at Michael.healy@defence.gov.au with a copy to me.

Thanks for your assistance

Bill Nicholls
