This memo will confirm our telephone conversation today. We would be pleased to receive Mr. Lubo Bosnofsky for a technical visit at the Oakville plant on Tuesday, December 20th, 1966.

Reservations have been made at the Constellation Hotel near the Toronto International Airport for the night of the 19th.

Upon arrival at Toronto Mr. Bosnofsky should simply take a cab over to the Hotel.

On Tuesday morning at 8:30 a.m. Mike Medgessy, our Production Technical Superintendent, will pick him up in the lobby of the Constellation Hotel.

The air traffic controllers of Air Canada are threatening to strike next week. If they do, Air Canada will be closed and will make the visit somewhat difficult. My secretary, Mrs. Gwen Howard, will 'phone you on Monday morning to let you know what the situation is.
