Mrs. Pat Longfield
Aero-Motive Mfg. Co.
P. O. Box 2678
Kalamazoo, Michigan 49003

Dear Mrs. Longfield:

Your letter concerning the Michigan critical materials register has been sent to me for reply.

The two materials supplied to you by Du Pont, 93-660-H red enamel and 67-738 red primer, both contain lead, xylene and butyl alcohol. These are the only ingredients present which are also listed in the Michigan register.

I hope this will provide the information needed by your customer.

Very truly yours,

William W. Miller
Toxicity & Pollution Control Coordinator
