Mandy -

Thank you for the note. It was great to present the UPS story to the EPA Administrator and his team.

I have cc'd Kara Ross, who handles communication on this for UPS, as well as Mike Kiely who heads up our Federal team in Washington DC. I think they are best positioned to assist on the US launch of our report this week, and can share what we will announce.

> I'm following up from the business meeting the Administrator hosted at the G7. You mentioned an upcoming announcement from UPS regarding efficiency improvements (better aligning products shipped with box sizes) and the number of emissions that would save. We'd be interested in working with you to help highlight great environmental efforts like that from US businesses.
