DEFENDANT'S ANSWERS AND OBJECTIONS
TO PLAINTIFFS' INTERROGATORIES AND REQUESTS FOR PRODUCTION

TO: Mr. Russell W. Budd, Baron & Budd, P.C., The Centrum,
3102 Oak Lawn Ave., Ste. 1100, Dallas, TX 75219.

COMES NOW, UNITED STATES GYPSUM COMPANY (hereinafter "U.S.
Gypsum"), Defendant in the above-entitled and numbered cause, and
files the attached Responses and Objections to Plaintiffs' Interro-
gatories and Requests for Production.

Respectfully submitted,

DeHAY & ELLISTON, L.L.P.

State Bar No. 05164250

COUNSEL FOR DEFENDANT UNITED
STATES GYPSUM COMPANY

CERTIFICATE OF SERVICE

I hereby certify that a true and correct copy of the above and
foregoing document has been forwarded to counsel for Plaintiffs,
Mr. Russell W. Budd, Baron & Budd, P.C., The Centrum, 3102 Oak Lawn
Ave., Ste. 1100, Dallas, TX 75219, by hand delivery, on this 20
day of SEPT., 1993.

DAVID W. CROWE

DEFENDANT'S RESPONSES AND OBJECTIONS TO PLAINTIFFS'
INTERROGATORIES AND REQUESTS FOR PRODUCTION

Page 1

PREFATORY STATEMENT

United States Gypsum Company (hereinafter "U.S. Gypsum") has, to the best of its abilities, gathered non-privileged documents into a document repository for inspection by plaintiffs' counsel in response to requests for production served in asbestos litigation. These documents provide information that supplements and expands upon that provided in these answers to Interrogatories and Requests For Production. Accordingly, by way of further response to these Interrogatories and Requests For Production, U.S. Gypsum hereby offers to make available these documents at a mutually convenient time at its offices at 125 S. Franklin Street, Chicago, Illinois.

In giving its responses to Interrogatories and Requests For Production as to asbestos-containing products, U.S. Gypsum refers to products containing commercial asbestos as part of their formulation and to the type of commercial asbestos used as part of the formulation.

OBJECTIONS

U.S. Gypsum objects to the manner in which plaintiff has defined U.S. Gypsum to the extent that plaintiff purports to include in its definition of U.S. Gypsum "any of its merged, consolidated, or acquired predecessors, divisions, subsidiaries, foreign subsidiaries, foreign subsidiaries of predecessors, and/or affiliates known to have mined, manufactured, sold, marketed, utilized or distributed asbestos or asbestos-containing products or that incorporated asbestos or asbestos-containing products into

ships or other water-going vessels. This definition includes present and former officers, directors, agents, employees, and all other persons acting or purporting to act on behalf of the corporate Defendant or its predecessors, subsidiaries, and/or affiliates known to have mined, manufactured, sold, marketed or distributed asbestos or asbestos-containing products. 'Predecessors' further means any business firm, whether or not incorporated, which had all or some of its assets purchased by you or came to be acquired by you whether by merger, consolidation, or otherwise known to have mined, manufactured, sold, marketed, utilized, or distributed asbestos or asbestos-containing products. 'Subsidiaries' further means any business firm whether or not incorporated, which is or was in any way owned or controlled, in whole or in part by Defendant or its predecessors and which is known to have mined, manufactured, sold, marketed, utilized or distributed asbestos or asbestos-containing products. Defendant is required to produce a schematic or diagram detailing its subsidiaries, predecessors and divisions that would be included in the above definition. (See Request for Production No. 2)." In that U.S. Gypsum Company is the named defendant, this definition is overly broad and would require U.S. Gypsum to engage in unduly burdensome research, divulge privileged information and produce privileged documents. This defendant, United States Gypsum Company, responds to these Interrogatories and Requests For Production on behalf of itself.

U.S. Gypsum further objects to these Interrogatories and Requests For Production to the extent they seek information or documents protected by the attorney-client privilege and the work product rule and to the extent they seek trial preparation or expert materials or documents.

In addition, U.S. Gypsum objects to these Interrogatories and Requests For Production to the extent they ask for "identification" of voluminous documents on the ground that they are overly broad, unduly burdensome and not reasonably calculated to lead to the discovery of admissible evidence. As set forth infra, U.S. Gypsum will produce documents which are the proper subjects of an appropriate document request.

Finally, to this defendant's best current knowledge, information and belief, this defendant believes that its products were never used in the shipbuilding trade. This defendant never manufactured any asbestos insulation material suited for shipbuilding. Most of this defendant's asbestos-containing products were gypsum-based and therefore were not suitable for use around water, moisture, ships, etc.

RESPONSES TO INTERROGATORIES

INTERROGATORY NO. 1.: State the name, address, job title, length of time employed by Defendant, and a year-by-year list of all other positions, titles, or jobs held when working for Defendant of each person who has supplied any information used in answering these Interrogatories.

ANSWER:

1. F. M. Poremski, Director, Financial and Accounting Services, United States Gypsum Company, has reviewed these

Responses for the purpose of satisfying the verification requirements. These Responses have been prepared based on the continual review of documents located in this defendant's files and information obtained from discussions with this defendant's employees over a period of many years. It is not possible to reconstruct each step taken to gather this information or to verify all documents which might possibly pertain to the matters at issue that have been located or examined in connection with these Responses. Nor is it possible to specifically identify by name each person who has participated in the preparation of these Responses or to identify each document which may have provided information used in preparing these Responses.

INTERROGATORY NO. 2.: For the time period during which asbestos-containing products were manufactured, assembled, sold or distributed by Defendant, and for the year preceding such activity, identify by date any meetings of the board of directors of Defendant at which the following topics were discussed:

- a. Asbestos-containing products;
- b. Asbestosis;
- c. Other asbestos-related diseases, including but not limited to lung cancer, mesothelioma, pleural plaques; and
- d. Dust studies that measure asbestos dust and fibers.

ANSWER:

2. Non-privileged, responsive documents, to the extent they exist, will be made available to plaintiff at a mutually convenient time through U.S. Gypsum Company's offices at 125 South Franklin Street, Chicago, IL.

INTERROGATORY NO. 3.: For the time period during which asbestos-containing products were manufactured, assembled, sold or distributed by Defendant, and for the year preceding such activity, identify by date any safety meetings, or meetings concerning safety issues, at any plant or other facility of Defendant where the following topics were discussed:

- a. Asbestos-containing products;
- b. Asbestosis;
- c. Other asbestos-related diseases, including but not limited to lung cancer, mesothelioma, pleural plaques; and
- d. Dust studies that measure asbestos dust and fibers.

ANSWER:

3. Objection. There has been no allegation that plaintiff was ever an employee of this defendant. Therefore, this Interrogatory is overbroad, irrelevant, immaterial, and is not reasonably calculated to lead to the discovery of admissible evidence. Non-privileged, responsive documents, to the extent they exist, will be made available to plaintiff at a mutually convenient time through U.S. Gypsum Company's offices at 125 South Franklin Street, Chicago, IL.

INTERROGATORY NO. 4.: Identify any asbestos-containing products manufactured by other companies that were sold and/or distributed by Defendant, its predecessors and/or subsidiaries. State the time periods during which any such products were sold and/or distributed.

ANSWER:

4. In the 1950's - 1970's, U. S. Gypsum purchased asbestos cement board from National Gypsum Company, which was reshipped as received. In addition, U. S. Gypsum drilled this material and rebranded it for sale and use as asbestos lay-in panels in the late 1950's. U. S. Gypsum also purchased pipe covering from a company believed to be named Baldwin-Ehret-Hill in the 1930's.

U. S. Gypsum purchased adhesive products for resale from W. W. Henry Company and a company believed to be a subsidiary of Sherwin Williams, but U. S. Gypsum has been unable to confirm dates of such purchases.

INTERROGATORY NO. 5.: Identify by name and location each plant owned, operated, or at any time bought by or under the control of Defendant in which asbestos-containing products were manufactured, assembled, or prepared for sale or marketing, and state the time periods during which the activity took place.

ANSWER:

5. See attached Schedule D.

INTERROGATORY NO. 6.: For each plant identified in Interrogatory No. 5, and for the time periods identified therein, list the dates, if any, in which ventilation systems were installed, or modifications to improve ventilation were made to existing systems. Provide a brief description of the changes made.

ANSWER:

6. Objection. There has been no allegation that plaintiff was ever an employee of this defendant. Therefore, this Interrogatory is overbroad, irrelevant, immaterial, and is not reasonably calculated to lead to the discovery of admissible evidence.

INTERROGATORY NO. 7.: For each plant identified in Interrogatory No. 5, and for the time periods identified therein, list the dates, if any, on which respirators were provided to employees.

ANSWER:

7. Objection. There has been no allegation that plaintiff was ever an employee of this defendant. Therefore, this Interrogatory is overbroad, irrelevant, immaterial, and is not reasonably calculated to lead to the discovery of admissible evidence.

INTERROGATORY NO. 8.: For each plant identified in Interrogatory No. 5, and for the time periods identified therein, list the dates, if any, on which warnings about the health hazards of asbestos were issued to employees.

ANSWER:

8. Objection. There has been no allegation that plaintiff was ever an employee of this defendant. Therefore, this Interrogatory is overbroad, irrelevant, immaterial, and is not reasonably calculated to lead to the discovery of admissible evidence.

INTERROGATORY NO. 9.: Identify by name and location each plant ever owned, operated or at a later date bought or under control of Defendant in which asbestos-containing products were used, and state the time periods during which such products were used at each plant.

ANSWER:

9. Objection. With respect to the term "used", this defendant objects in that it is vague and ambiguous. Further, there has been no allegation that plaintiff was ever an employee of this defendant. Therefore, this Interrogatory is overbroad, irrelevant, immaterial, and is not reasonably calculated to lead to the discovery of admissible evidence.

INTERROGATORY NO. 10.: For each plant identified in Interrogatory No. 9, and for the time periods identified therein, list the dates, if any, on which ventilation systems were installed, or modifications to improve ventilation were made to any existing ventilation systems. Provide a brief description of the changes made.

DEFENDANT'S RESPONSES AND OBJECTIONS TO PLAINTIFFS'
INTERROGATORIES AND REQUESTS FOR PRODUCTION

f:\asb3\USG3.rog

ANSWER:

10. Objection. See this defendant's response to Interrogatory No. 9.

INTERROGATORY NO. 11.: For each plant identified in Interrogatory No. 9, and for the time periods identified therein, list the dates, if any, on which respirators were provided to any employees using asbestos-containing products.

ANSWER:

11. Objection. See this defendant's response to Interrogatory No. 9.

INTERROGATORY NO. 12.: For each plant identified in Interrogatory No. 9, and for the time periods identified therein, list the dates, if any, on which warnings about the health hazards of asbestos were issued to employees.

ANSWER:

12. Objection. See this defendant's response to Interrogatory No. 9.

INTERROGATORY NO. 13.: Prior to 1990, did any person file a claim against a Workers' Compensation carrier covering Defendant, its predecessors, and/or its subsidiaries, alleging that he/she contracted a disease from inhaling asbestos fibers while employed by Defendant, its predecessors, and/or its subsidiaries? If so, provide:

- a. A list of the claims, including each claimant's name, address, and the date each claim was filed, and including the caption and jurisdiction of the claim;
- b. The disease alleged in each such claim;
- c. A brief summary of the disposition of each such claim; and
- d. The name, address and title of the person having custody of the records pertaining to each such claim.

ANSWER:

13. Objection. There has been no allegation that plaintiff was ever an employee of this defendant. Therefore, this Interrogatory is overbroad, irrelevant, immaterial, and is not reasonably calculated to lead to the discovery of admissible evidence.

INTERROGATORY NO. 14.: State the time periods, if any, during which Defendant was a member of each of the following organizations:

- a. Asbestos Textile Institute (ATI);
- b. Quebec Asbestos Mining Association (QAMA);
- c. National Insulation Manufacturers Association (NIMA);
- d. Industrial Hygiene Foundation (IHF);
- e. Air Hygiene Foundation (AHF);
- f. Asbestos Information Association (AIA); and
- g. American Conference of Governmental Industrial Hygienists (ACGIH).

ANSWER:

14. See attached Exhibit No. 1.

INTERROGATORY NO. 15.: State the dates and amounts of any financial contributions that were made by this Defendant to each of the following organizations:

- a. Asbestos Textile Institute (ATI);
- b. Quebec Asbestos Mining Association (QAMA);
- c. National Insulation Manufacturers Association (NIMA);
- d. Industrial Hygiene Foundation (IHF);
- e. Air Hygiene Foundation (AHF);
- f. Asbestos Information Association (AIA); and
- g. American Conference of Governmental Industrial Hygienists (ACGIH).

ANSWER:

15. Non-privileged, responsive documents, to the extent they exist, will be made available to plaintiff at a mutually convenient time through U.S. Gypsum Company's offices at 125 South Franklin Street, Chicago, IL.

INTERROGATORY NO. 16.: Has any employee or agent of Defendant ever testified before any governmental entity regarding asbestos, asbestos-containing products or diseases related to the inhalation of asbestos dust or fibers? If so, provide the name of each person so testifying, and the name, date and location of each hearing.

ANSWER:

16. A copy of the testimony presented by Thaddeus S. Snell at a hearing conducted by the Environmental Protection Agency in 1984 will be made available through the offices of U. S. Gypsum at 125 South Franklin Street, Chicago, Illinois.

DEFENDANT'S RESPONSES AND OBJECTIONS TO PLAINTIFFS'
INTERROGATORIES AND REQUESTS FOR PRODUCTION

f:\asb3\USG3.rog

INTERROGATORY NO. 17.: Before 1974, did Defendant ever furnish any papers, documents, internal memoranda, or other writings concerning asbestos-related diseases and/or the health hazards of inhaling asbestos dust and fibers to the United States Public Health Service or to any other governmental agencies? If so, identify the writings and the dates they were so furnished.

ANSWER:

17. Non-privileged, responsive documents, to the extent they exist, will be made available to plaintiff at a mutually convenient time through U.S. Gypsum Company's offices at 125 South Franklin Street, Chicago, IL.

INTERROGATORY NO. 18.: Before 1974, did Defendant ever furnish any papers, documents, internal memoranda, or other writings concerning asbestos-related disease and/or the health hazards of inhaling asbestos dust and fibers, to the United States Navy or United States Naval Facilities? If so, identify the writings and the dates they were so furnished.

ANSWER:

18. Non-privileged, responsive documents, to the extent they exist, will be made available to plaintiff at a mutually convenient time through U.S. Gypsum Company's offices at 125 South Franklin Street, Chicago, IL.

INTERROGATORY NO. 19.: Did Defendant ever provide any information to a military or other governmental entity concerning the health hazards of inhaling asbestos dust and fibers that was used, or was intended to be used, in the drafting of military specifications for the use of asbestos-containing products?

ANSWER:

19. Non-privileged, responsive documents, to the extent they exist, will be made available to plaintiff at a mutually convenient time through U.S. Gypsum Company's offices at 125 South Franklin Street, Chicago, IL.

INTERROGATORY NO. 20.: Did Defendant ever provide information to a military or other governmental entity that was used or intended to be used in drafting military specifications for the design of asbestos-containing products? If so, for each identify:

- a. State the name of the entity;
- b. Describe the information provided; and
- c. Give the dates on which the information was provided.

ANSWER:

20. Non-privileged, responsive documents, to the extent they exist, will be made available to plaintiff at a mutually convenient time through U.S. Gypsum Company's offices at 125 South Franklin Street, Chicago, IL.

INTERROGATORY NO. 21.: Did any employee or agent of Defendant ever receive a copy of any of the following articles? If so, for each article, state the name of the recipient and the date the article was received:

- a. WALDEMAR DREESSEN, "A Study of Asbestosis in the Asbestos Textile Industry," U.S. Treasury Dept. Public Health Bull. No. 241, August, 1938.
- b. WALTER FLEISCHER, PHILLIP DRINKER, et al., "Health Survey of Pipe Covering Operations in Constructing Naval Vessels," Journ. Industrial Hyg. & Tox. 28:9 (1946).
- c. RICHARD DOLL, "Mortality from Lung Cancer in Asbestos Workers," Brit. J. Industr. Med. 12: 81-86 (1955)
- d. E.R.A. MEREWETHER, "The Occurrence of Pulmonary Fibrosis and Other Pulmonary Affections in Asbestos Workers," J. Ind. Hyg., Vol. XII (1930).

ANSWER:

21. a. This defendant has a copy of this document in its document collection. However, this defendant cannot ascertain whether a copy of this document was received contemporaneously to its publication.
- b. Not to this defendant's best current knowledge, information, and belief.
- c. Not to this defendant's best current knowledge, information, and belief.
- d. With respect to an article entitled, "The Occurrence of Pulmonary Fibrosis and Other Pulmonary Afflictions in Asbestos Workers", this defendant has a copy of this document in its document collection. However, this defendant cannot ascertain whether a copy of this document was received contemporaneously to its publication.

INTERROGATORY NO. 22.: Has Defendant ever conducted any tests or studies concerning the effects of the inhalation of asbestos dust or fibers on the animal or human respiratory system? If so, provide the name, date, and location of each test or study and

DEFENDANT'S RESPONSES AND OBJECTIONS TO PLAINTIFFS'
INTERROGATORIES AND REQUESTS FOR PRODUCTION

f:\asb3\USG3.rog

state by whom in the corporation the report of the results was received.

ANSWER:

22. U.S. Gypsum Company contributed to a study conducted beginning approximately 1936 by Dr. Gardner of the Saranac Laboratory. Non-privileged, responsive documents, to the extent they exist, will be made available to plaintiff at a mutually convenient time through U.S. Gypsum Company's offices at 125 South Franklin Street, Chicago, IL.

INTERROGATORY NO. 23.: Has Defendant ever litigated the issue of insurance coverage in a case involving exposure to asbestos? If so, for each case state:

- a. the names of the parties, the court, and the case number;
- b. the filing date;
- c. the name and address of the attorneys representing the insurance carrier; and
- d. whether the case has been settled.

ANSWER:

23. Objection. This Interrogatory is overbroad, irrelevant, immaterial, and is not reasonably calculated to lead to the discovery of admissible evidence. Without waiving this objection, see attached Exhibit No. 2.

INTERROGATORY NO. 24.: Has Defendant ever conducted any tests or studies concerning the health hazards to an individual exposed to both asbestos dust/fibers and tobacco smoke? If so, provide the names and dates of each test or study.

ANSWER:

24. Not to this defendant's best current knowledge, information, and belief.

INTERROGATORY NO. 25.: To date, has Defendant furnished any information to consumers, other users of asbestos-containing products, or to the general public, about the health hazards to an individual exposed to both asbestos dust/fibers and tobacco smoke? If so, state how and when this information was conveyed.

ANSWER:

25. Not to this defendant's best current knowledge, information, and belief.

INTERROGATORY NO. 26.: To date, has Defendant ever attempted to recall its asbestos-containing products?

ANSWER:

26. U. S. Gypsum has not conducted a recall of any of its products because of any alleged health hazards associated with asbestos.

INTERROGATORY NO. 27.: Describe in detail:

- a. How your documents relating to asbestos, asbestos diseases, and asbestos-containing products are maintained;
- b. How your documents relating to asbestos, asbestos diseases and asbestos-containing products are organized; and
- c. Where these documents are kept.

ANSWER:

27. Documents responsive to this Interrogatory are found in this defendant's Asbestos Litigation Document Repository, located at 125 South Franklin Street, Chicago, IL 60606. See attached Exhibit 3.

RESPONSES TO REQUESTS FOR PRODUCTION

REQUEST FOR PRODUCTION NO. 1: Produce copies of the minutes of any meetings of the board of directors of Defendant at which the following topics were discussed:

- a. Asbestos-containing products;
- b. Asbestosis;
- c. Other asbestos-related diseases, including but not limited to lung cancer, mesothelioma, pleural plaques; and
- d. dust studies that measure asbestos dust and fibers.

RESPONSE:

1. Non-privileged, responsive documents, to the extent they exist, will be made available to plaintiff at a mutually convenient time through U.S. Gypsum Company's offices at 125 South Franklin Street, Chicago, IL.

REQUEST FOR PRODUCTION NO. 2: Produce copies of the minutes of any safety meetings or any meetings at any plant or facility of Defendant where the following topics were discussed:

- a. Asbestos-containing products;
- b. Asbestosis;
- c. Other asbestos-related diseases, including but not limited to lung cancer, mesothelioma, pleural plaques; and
- d. dust studies that measure asbestos dust and fibers.

RESPONSE:

2. Objection. There has been no allegation that plaintiff was ever an employee of this defendant. Therefore, this Request is overbroad, irrelevant, immaterial, and is not reasonably calculated to lead to the discovery of admissible evidence.

REQUEST FOR PRODUCTION NO. 3: Produce copies of the patents obtained for the asbestos-containing products manufactured, assembled, and/or prepared for sale or marketing by Defendant.

RESPONSE:

3. This defendant is aware that it held a patent for at least one of the above-stated products, that product being K-FAC. As related to the other specified products, to the extent such information is available to United States Gypsum Company and would not require it to undertake an unreasonable investigation at an unreasonable cost, it is contained in documents which United States Gypsum Company will provide through its offices at 125 S. Franklin Street, Chicago, IL 60606.

REQUEST FOR PRODUCTION NO. 4: Produce copies of the patents obtained for those asbestos-free products intended to be substitutes for asbestos-containing products manufactured, assembled, or prepared for sale or marketing by Defendant.

DEFENDANT'S RESPONSES AND OBJECTIONS TO PLAINTIFFS' INTERROGATORIES AND REQUESTS FOR PRODUCTION

f:\asb3\USG3.rog

RESPONSE:

4. Objection. This Request is overbroad in that it is not limited to asbestos, the focus of this litigation.

REQUEST FOR PRODUCTION NO. 5: Produce copies of the testimony of each and every employee or agent of Defendant at each and every hearing by a governmental entity concerning asbestos, asbestos-containing products, or diseases related to the inhalation of asbestos dust and fibers.

RESPONSE:

5. Non-privileged, responsive documents, to the extent they exist, will be made available to plaintiff at a mutually convenient time through U.S. Gypsum Company's offices at 125 South Franklin Street, Chicago, IL.

REQUEST FOR PRODUCTION NO. 6: Produce copies of every test or study that measured the asbestos fibers or measured the asbestos dust and/or fiber levels at every plant owned, operated, bought by or under the control of Defendant. Provide the dates for each test or study.

RESPONSE:

6. Objection. There has been no allegation that plaintiff was ever an employee of this defendant. Therefore, this Request is overbroad, irrelevant, immaterial, and is not reasonably calculated to lead to the discovery of admissible evidence. Without waiving this objection, non-privileged, responsive documents, to the extent they exist, will be made available to plaintiff at a mutually convenient time through U.S. Gypsum Company's offices at 125 South Franklin Street, Chicago, IL.

REQUEST FOR PRODUCTION NO. 7: Produce copies of every test or study received by Defendant that measured asbestos fibers or measured asbestos dust and/or fiber levels at the Thetford Mines.

RESPONSE:

7. Non-privileged, responsive documents, to the extent they exist, will be made available to plaintiff at a mutually convenient time through U.S. Gypsum Company's offices at 125 South Franklin Street, Chicago, IL.

REQUEST FOR PRODUCTION NO. 8: Produce all documents in the possession, custody, or control of Defendant relating to the Braun & Traun study done for the Quebec Asbestos Mining Association.

RESPONSE:

8. Non-privileged, responsive documents, to the extent they exist, will be made available to plaintiff at a mutually convenient time through U.S. Gypsum Company's offices at 125 South Franklin Street, Chicago, IL.

REQUEST FOR PRODUCTION NO. 9: Produce copies of all documents which contain any reference to tests or studies that found either asbestos dust, or total dust including asbestos, in quantities exceeding 2 million particles per cubic foot of air, at any plant owned, operated, bought by or under the control of Defendant, during the manufacture, assembly, or preparation for sale or assembly, of any asbestos-containing products.

RESPONSE:

9. Objection. There has been no allegation that plaintiff was ever an employee of this defendant. Therefore, this Request is overbroad, irrelevant, immaterial, and is not reasonably calculated to lead to the discovery of admissible evidence. Without waiving this objection, non-privileged, responsive documents, to the extent they exist, will be made available to plaintiff at a mutually convenient time through U.S. Gypsum Company's offices at 125 South Franklin Street, Chicago, IL.

REQUEST FOR PRODUCTION NO. 10: Produce copies of all documents which contain any reference to tests or studies which found either asbestos dust, or total dust including asbestos, in quantities exceeding 5 million particles per cubic foot of air, at any plant owned, operated, bought by or under the control of Defendant, during the use of any asbestos-containing products.

RESPONSE:

10. Objection. There has been no allegation that plaintiff was ever an employee of this defendant. Therefore, this Request is overbroad, irrelevant, immaterial, and is not reasonably calculated to lead to the discovery of admissible evidence. Without waiving this objection, non-privileged, responsive documents, to the extent they exist, will be made available to plaintiff at a mutually convenient time through U.S. Gypsum Company's offices at 125 South Franklin Street, Chicago, IL.

REQUEST FOR PRODUCTION NO. 11: Produce copies of any and all tests or studies conducted by Defendant concerning the effects of the inhalation of asbestos dust or fibers on animal or human respiratory systems.

DEFENDANT'S RESPONSES AND OBJECTIONS TO PLAINTIFFS'
INTERROGATORIES AND REQUESTS FOR PRODUCTION

f:\asb3\USG3.rog

RESPONSE:

11. Non-privileged, responsive documents, to the extent they exist, will be made available to plaintiff at a mutually convenient time through U.S. Gypsum Company's offices at 125 South Franklin Street, Chicago, IL.

REQUEST FOR PRODUCTION NO. 12: Produce copies of all documents produced during the course of Defendant's litigation with any insurance carrier concerning exposure to asbestos.

RESPONSE:

12. Objection. This Request is overbroad, irrelevant, immaterial, and is not reasonably calculated to lead to the discovery of admissible evidence.

REQUEST FOR PRODUCTION NO. 13: Produce copies of all depositions taken by any party during the course of Defendant's litigation with any insurance carrier concerning exposure to asbestos.

RESPONSE:

13. Objection. This Request is overbroad, irrelevant, immaterial, and is not reasonably calculated to lead to the discovery of admissible evidence.

REQUEST FOR PRODUCTION NO. 14: Produce copies of any tests or studies conducted by, or received by, Defendant concerning the health hazards to an individual exposed to both asbestos dust/fibers and tobacco smoke.

RESPONSE:

14. Non-privileged, responsive documents, to the extent they exist, will be made available to plaintiff at a mutually convenient time through U.S. Gypsum Company's offices at 125 South Franklin Street, Chicago, IL.

ASBESTOS-CONTAINING PRODUCTS MANUFACTURED BY U.S. GYPSUM

The dates listed here are taken from product operating bulletins which governed the manufacturing process. The cancellation of these operating bulletins usually coincided with cessation of production, but occasionally bulletins would remain uncanceled after the manufacture of a product had been discontinued. Consequently, the years shown for cancellation of authorization are believed to be the last possible year of manufacture, although manufacture may have in fact ended earlier. Production dates established through documentation other than product operating bulletins have been footnoted. Temporary and trial production runs are included (along with regular production). These have been footnoted for Firecode and can be determined for other products from a review of operating bulletins. With texture products, such runs were occasionally given slight name variations.

February 16, 1993

NOTE: Not all products were necessarily made at all plants at all times listed, even though they were authorized for production.

- ¹ At some period of time between 1926 and 1930, Sabinite is believed to have been manufactured at U.S. Gypsum's plant at Arden, Nevada. However, no bulletins for that plant have been located, it having been closed in 1930.
- ² Sabinite may have been produced until this date, but sales diminished substantially by the mid-1950's.
- ³ Not sold in the United States.
- ⁴ Two-component Hi-Lite plaster was authorized for production in June 1953 and discontinued in August 1954. Approximately 4 tons of a temporary variant was produced during 1953, and packaged as "Lime-Keene's Acoustical Plaster."
- ⁵ Marketed as Red Top Acoustical Plaster with the word 'Spray' stenciled on the bag from 1954 to 1955; marketed as Red Top Spray On Acoustical Plaster in 1955; marketed as Red Top Audicote Acoustical Plaster from 1955 to 1968.
- ⁶ A trial job of 3 tons only.
- ⁷ Contained less than 1.0% asbestos (not asbestos-containing products under applicable law).
- ⁸ Two month production run only.
- ⁹ Temporary production of Firecode only.
- ¹⁰ Trial jobs were produced in 1959 for tests by Underwriters' Laboratories; regular production commenced in 1960.
- ¹¹ As of December of 1969 Firecode V had been dropped from U.S. Gypsum's product line and sales of this product had not been actively solicited by the company for some time. U.S. Gypsum believes that a limited quantity of Firecode V was produced in early 1970 at the East Chicago plant for the completion of a single job already in progress.

February 16, 1993

- 12 U.S. Gypsum manufactured SprayDon pursuant to the specifications of Sprayon Research Corporation. While Types A and G remained on operating bulletins until 1973, production of G was discontinued in 1970, and A was discontinued on January 1, 1972. Type I, though authorized, was never produced.
- 13 From production records.
- 14 K-Fac 19 was produced for A.P. Green and packaged and sold by that company under the name INSBLOK. Information contained in plant records suggests that production may have commenced in 1969.
- 15 Information contained in plant records suggests that production may have commenced in 1965.
- 16 Temporary production only.
- 17 Trial job authorized for temporary production only on and off from 1959 to 1961.
- 18 Marketed from 1970 to 1977 as Sheetrock Texture Finish Paint in Canada.
- 19 Although authorization to manufacture these products was not cancelled until 1940, the last sales took place in 1938.
- 20 Actual Canadian production ceased in 1978.
- 21 This product line was manufactured by a company that became a U.S. Gypsum subsidiary in 1971, and records of the production history are incomplete.
- 22 Records regarding the production history of this product line are incomplete.
- 23 Though authorized for production until 1978, actual production ceased in 1977.

Most of the products identified in this exhibit have a shelf life of approximately six months, with some variation due to humidity and storage conditions. It is the policy of the defendant to provide this information to all customers. Therefore, date of last production approximates date of last sale, though U.S. Gypsum is not certain whether shelf life guidelines were adhered to by its customers. Reasonable investigation is continuing.

Further information concerning products which are established to be at issue is contained in documents which will be made available for inspection at the offices of United States Gypsum, 125 South Franklin Street, Chicago, IL 60606-4678.

United States Gypsum Company
Asbestos Litigation Document Repository
Indices of General Document Collection and Bulk Document Collection
Table of Contents

<u>SECTION</u>	<u>CATEGORY</u>	<u>DESCRIPTION</u>	<u>NO. OF PAGES</u>
General Document Collection			
1	Abatement-Policy	Correspondence and summaries of Company policy regarding asbestos abatement at Company locations. Documents are filed in numerical order.	2
2	Abatement-Plant	Correspondence describing and/or discussing asbestos abatement activities at plant locations. Documents are filed in alphabetical order by plant. Within each folder documents are in numerical order.	9
3	Acquisition and Divestiture	Documents concerning acquisitions/divestitures of businesses that produced and sold asbestos containing products. Documents are filed in numerical order.	1
4	Advertising - Product Literature	Advertising and promotional material pertaining to the Company's asbestos containing products. Documents are organized by the 13 asbestos containing product groups with the 14th category being multiple products. Documents are filed in numerical order.	18
5	AIA	Technical descriptions of Company's asbestos containing products. Generally referenced by architects. Documents are organized the same as Advertising Product Literature. Documents are filed in numerical order.	13
6	Sweets	Technical descriptions of the Company's asbestos containing products which were submitted for publication by Sweets' Catalog. Documents are organized the same as Advertising Product Literature. Documents are filed in numerical order.	15
7	Non-Asbestos Products	AIA, Sweets and Advertising-Product literature pertaining to non-asbestos containing Company	14

products. Documents are organized by magazine type and all other. Documents are filed in numerical order.

8	Board of Directors	Various materials relating to Board activities. Documents are filed in numerical order.	1
9	Capital Authorities -Authority Files	Capital expenditures file materials which discuss asbestos. Documents are filed in numerical order.	1
10	Capital Authorities -Misc. Corres.	Other materials concerning Company capital expenditures. Documents are filed in numerical order.	1
11	Card Catalogs -Research Library	Complete Libertyville Research Center Card Catalog as of April 1987. Documents are filed in numerical order.	1
12	Card Catalogs -Corporate Library	Complete USG Corp. Library Card Catalog from the 101 Building as of January 14, 1988. Documents are filed in numerical order.	1
13	Contracts and Agreements	Documents pertaining to contracts and agreements entered into by the Company. Documents are filed in numerical order.	13
14	Corporate Minutes	Board minutes. Documents are filed in numerical order.	1
15	Customer Inquiries -Policy/Way to Respond	Documents describing Company procedures when replying to an inquiry about one of its products. Documents are filed in numerical order.	1
16	Customer Inquiries -Correspondence	Customer inquiries and replies. Documents are filed in numerical order.	24
17	Customer Inquiries -Complaints	Correspondence and reports describing a complaint about a product. Documents are filed in numerical order.	4

18	Demand Letters	Demands that the Company remove asbestos containing products from buildings owned by the writer or the party represented by the writer. Documents are filed in numerical order.	1
19	Documents Collected from Sources Outside of the Company	Material not found in the business records of US Gypsum Company. These materials were received by attorneys for US Gypsum from third parties in connection with the defense of US Gypsum in litigation. Documents are filed in numerical order.	3
20	Documents Pertaining to Other Companies	Documents which pertain to or were written by other Companies includes advertisements. Documents are filed in numerical order.	3
21	Studies by Dr. Gardner	Materials relating to studies performed by Dr. Gardner of Saranac Labs. Documents are filed in numerical order.	1
22	Encapsulation	Documents discussing or describing encapsulation and related activities. Documents are filed in numerical order.	2
23	Financial Related Information -Annual Rpts	United States Gypsum Company Annual Reports. Documents are filed by year from 1920-1986.	1
24	Financial Related -Miscellaneous	Various information concerning plant costs, project analyses and annual reports of other Companies. Documents are filed in numerical order.	2
25	Insurance -Policies	Insurance policies. Documents are filed in numerical order by policy.	1
26	Insurance -Misc. Corres.	Various documents discussing insurance related matters. Documents are filed in numerical order.	2

27	Insurance -Dept. Dead Storage	Stored insurance department inactive file materials. Documents are filed in numerical order.	2
28	Material Safety Data Sheets	Description of certain product components. Documents are filed in numerical order.	1
29	Medical Related Rpts and Corres.	Documents concerning chest x-rays, personnel records and related information. Documents are filed in numerical order.	6
30	NATLSCO	Industrial Hygiene Studies performed by the National Loss Control Service Corporation at Company plant facilities. Documents are filed in numerical order.	2
31	Non-Product Operating Bulletins	Administrative and operating bulletins not related to the manufacture of the Company's products. See index for further delineation. Documents are filed in numerical order.	2
32	Outside Meetings and Seminars-Corres.	Material referencing meetings and seminars conducted outside of the Company. Documents are filed in numerical order.	1
33	OSHA -Violations	Documents describing violations cited by OSHA. Documents are filed in chronological order.	1
34	OSHA -Rpts. and Corres.	Other material relating to OSHA and its activities. Documents are filed in chronological order.	1
35	Organization Charts	A collection of Company organization charts and various personnel listings. Documents are filed in numerical order.	1
36	Packaging, Labeling and Warning	Documents discussing product packaging, labeling and warnings and materials on employee warnings. Documents are filed in chronological order.	2
37	Patent and Trademark	Materials concerning Company patents and trademarks for asbestos containing products. Documents are filed in numerical order.	1

38	Product Information- General	Documents describing or discussing Company products or issues affecting those products. Documents are filed in numerical order.	12
39	Product Operating Bulletins	A collection of the Company's Product Operating Bulletins relating to the manufacture of asbestos containing products. See index for further delineation. Documents are filed in numerical order.	3
40	Plt. Related Corres. and Reports	Materials concerning plant activities or referencing Company plants. Documents are filed in numerical order.	3
41	Published Documents	Published documents and materials relating to such documents. Documents are filed in numerical order.	11
42	Purchase Related Rec. and Corres.	Materials relating to Company purchasing activities. Documents are filed in numerical order.	3
43	Research Lab Notebook Index	An index of the Libertyville Research Center Laboratory Notebooks as of April 1987. Documents are filed in numerical order.	2
44	Research Lab Notebooks	Excerpts from Research Lab Notebooks previously selected by plaintiff counsel. Documents are filed in numerical order.	1
45	Research Reports -Thesaurus	Listing of Key Words contained in Research Report Information Retrieval System. Documents are filed in numerical order.	1
46	Research Reports -Key Word Searches	Information Retrieval System printouts listing Research Reports identified by certain Key Words. Documents are filed in keyword order.	8
47	Research Reports -Reports	Hardcopy Research Reports identified by certain Key Word Searches and other Research Reports. Documents are filed by Research Report number.	534
48	Research Related Docs. -Dead Storage: Roofing, Siding and Insulation	Stored inactive files concerning Company Roofing, Siding and Insulation Products. Documents are filed in numerical order.	3

49	Research Related Docs. -Miscellaneous	Materials relating to research activities. Documents are filed in numerical order.	23
50	Retirement Disabil. and Deceased	Documents pertaining to retired, disabled or deceased Company employees who alleged they had a lung related disability, whether or not there is an allegation that the employee contracted any disease by reason of exposure to asbestos. Documents are filed in numerical order.	2
51	Sales Records Data	Information on Company sales of asbestos containing products. (Sales Statistics for the years 1965 through 1976 by state are also separately available.) Documents are filed in numerical order.	1
52	SBA Minutes	Minutes from Safe Building Alliance meetings through May, 1987. Documents are filed in numerical order.	1
53	Stored Files From Outside Law Firm	Documents collected from the files of Keck, Mahin and Cate. Documents are filed in numerical order.	7
54	Testing -Fiber Release	Testing and studies on asbestos fiber release and friability. Documents are filed in chronological order.	1
55	Testing -Dust Surveys/Air Monitoring	Testing and studies concerning conditions and atmosphere at Company facilities. Documents are filed in chronological order.	15
56	Testing -Other	Documents relating to plant product trials, sample analysis and a variety of testing. Documents are filed in chronological order.	10
57	Trade Assoc and Organizations	Information written by or describing various trade associations and organizations. Documents are filed in numerical order.	2
58	Underwriters Laboratories	Correspondence and reports pertaining to Underwriters Laboratories. Document are filed in numerical order.	1
59	Wiss, Janney, Elstner Associates, Inc.	Documents from the files of Wiss, Janney, Elstner Associates, Inc. Documents are filed in numerical order.	4
60	Worker's Comp Claim	Asbestos related workers compensation claim petitions or other documents giving notice of such a claim by	

Company employees. Document are filed in numerical order.

61	101 Bldg. Oper./ Maint.	Materials concerning the 101 S. Wacker Building Documents are filed in numerical order.	1
62	Miscellaneous Documents	All other material that was not assigned to any of the aforementioned categories. Documents are filed in numerical order.	5

Bulk Document Collection

63	Bulk	Various materials produced in bulk.	1
