whether any fiber had been purchased, asbestos fiber by Ford, during that time.

MR. KRAUSE: I think that is beyond the scope of your Notice, but if he can answer -- if he knows.

Q (BY MR. FLOYD) If you know.

A I don't know that Ford purchased any asbestos, raw asbestos fiber.

Q Did Ford manufacture any brake linings, themselves, or brake pads, from 1960 to 1975?

A No, they did not.

Q Okay. That answers my question. Let's get on then to suppliers of brake linings and brake pads. Can you tell us, Mr. Ridenour, starting in 1960, what suppliers Ford had for these items?

MR. TRYNIECKI: On behalf of Abex Corporation, I would like to lodge an objection, based upon a lack of foundation for this witness.

MR. STEELE: I will join.

MR. WUESTLING: I further ask that it be clarified, if we are talking about brake linings or brake assemblies at this point.

MR. FLOYD: I am talking about brake linings a brake pads.

Q (BY MR. FLOYD) You may answer, Mr. Ridenour, subject to the objections. Do you understand my question?
