Mr. L. A. Couverette
Foseco Canada Limited
201 Alice Street
Guelph, Ontario, Canada

Dear Mr. Couverette,

In reply to your letter of June 23, I have enclosed a current data sheet on Grade S33/65 Amosite.

I have also enclosed a booklet entitled "Fibrous Silicates" and call your attention to Page 16 where you will find a table on the chemical analysis of Amosite fibre. You might also be interested in the section on "Thermal Decomposition of Asbestos" (Page 30).

We hope the enclosures meet your needs, but would be happy to hear from you if we can be of further service.

Sincerely yours,

NORTH AMERICAN ASBESTOS CORPORATION
