NON-RESPONSIVE TO INQUIRY

4. Report on Acroosteolysis Study

The Committee expressed approval of the case registry proposal submitted by the University of Michigan, and urged that it be contemplated as a continuing project. They deplored the one-year basis of the present proposal, although they recognized it as a budgetary expedient. The subcommittee was asked to begin preparation of a study proposal providing long-term continuity for the case registry activities at the end of the presently contemplated one-year period.

The chairman named the following individuals as an epidemiology subcommittee to prepare the proposal:

J. H. Wolfsie, M. D., chairman
G. J. Stopps, M. D.
J. A. Pendergrass
T. R. Torkelson

CONFIDENTIAL

Subject to Protective Order in
Ross v. Conoco, Inc., No. 90-4937
14th Judicial District Court
Calcasieu Parish, Louisiana

The Committee discussed briefly the drafts of the three technical papers on the project that are now being prepared for publication. It asked that Mr. McCormick explore with Dr. Dinman the question of editorial revision to improve the clarity of presentation. It also asked that, if feasible, the acknowledgements of MCA and HEW support be made more explicit to identify the elements with which each sponsor was involved.
