Leroy U. Gardner, M.D. Director,
The Saranac Laboratory
for the Study of Tuberculosis
of the Edward L. Trudeau Foundation,
Saranac Lake, New York.

Dear Doctor Gardner,

Replying to your letter of January 12th asking to be permitted to make a survey of the files of Manheim employees, would advise that Doctor Kenna has these files in his possession and it would be satisfactory for you to examine them and systematically record any changes or other information that you wish to obtain.

There are also some files at Manheim that have been taken of prospective employees who have worked in other industries that may have dust hazard and these are in possession of the office at Manheim, Pa. and if you want to look at some of these, will you please contact:-

Mr. O.H. Gilley, Assistant General Manager,
United States Asbestos Division
of Raybestos-Manhattan, Inc.,
Manheim, Pennsylvania.

and he will be very glad to show them to you.

Of course it is understood that our name will not be mentioned in any way in the examination or in your report of the files. For a matter of your records and the Metropolitan Insurance Company it is alright, but I mean general publication.

Yours very truly,

H. Simson,
President
Raybestos-Manhattan, Inc.
