Pulmonary Medicals and X-rays

Confirming the message I left for you with Mary, we wish to commence immediately to have these tests performed on all of the 16th Street employees. As we have previously discussed, this must be completed by January 31, 1973. In order to allow for possible problems, I would like to try to schedule it so it is done by December 31 of this year, and if this is not possible, at least to have all costs included in our 1972 profit picture.
