Dr. Robert A. Kehoe
University of Cincinnati
The Kettering Laboratory
College of Medicine - Eden Ave.
Cincinnati 19, Ohio

Dear Dr. Kehoe:

Thank you very much for your letter of February 1 and the brief status report you sent with your letter of February 4. This report is quite helpful, and I am circulating it to several other interested persons. We will be pleased to receive the more detailed report you referred to when it is completed.

We are acquainted with the air pollution problem in Los Angeles that you referred to and have been giving considerable thought and study to this problem both from the chemical and medical standpoints. As you point out, it is quite possible that information from your studies may be helpful in establishing the facts in this situation.

Sometime in the next month or two Dr. Rankin, of our Medical Division, and I would like to visit your laboratory and get better acquainted with the details of your studies. I will write to you in a few weeks to set a date for such a visit at a time convenient to you.

Very truly yours,

TECHNICAL DIVISION
