

1849 — 1921

IN 1849, W. P. Fuller Sr. sailed 'round The Horn to San Francisco—thence to Sacramento, where he established the business that today bears his name.

SINCE '49, this organization has grown steadily. From this modest beginning, the opportunities for Service have increased to such proportions that sixteen co-ordinate Fuller Branches are required to conduct today's activities.

TWO reasons for this growth. Products made as skillfully as is humanly possible, and—recognition of Western Paints and Varnishes by The West for The West.

W. P. FULLER & CO.
