Subject: FW: Report Summary of Ministry of the Environment Japan's PFAS Study

Dear [REDACTED]

FYI. A while ago I was interviewed by this consultant on EU legislation in fire-fighting foams. Unfortunately, the summary is not very useful, but I guess the main report is mostly on PFOA and PFOS. I doubt Japan will be regulating other PFAS in the near future.

Kind regards

[REDACTED]

Subject: Report Summary of Ministry of the Environment Japan's PFAS Study

Dear [REDACTED]

Hope you are doing well. This is [REDACTED] from EX Research Institute Ltd. Thank you very much for allowing us to interview you for the Ministry of the Environment Japan's Study on International Trends Regarding PFAS FY2020. I send you the English Summary of the final report as per attached. I apologize that this is the only available information in English, as the rest of the report is only available in Japanese. Due to our interview with you, we were able to comprehend the various activities and legislation that are being implemented toward the restriction of PFAS, and our government is considering further actions in Japan. Again, we sincerely appreciate your cooperation with our study.

Best regards,

[REDACTED] on behalf of EX Research Institute Ltd.
