Patsy,

Attached is the letter we discussed with Dr. Irons. I read him the one change linking this letter to yesterday's letter and he was OK with that. He asked that you fax the final letter to him and the 4 cc's. Feel free to call to discuss further.

Regards,
Brian

Re: *Supplemental Funding for Shanghai Health Study*

Gentlemen:

On behalf of the Oversight Committee of the Benzene Health Research Consortium (BHRC), I am withdrawing the letter dated February 23, 2007. It has been brought to my attention that the letter may be unintentionally misleading and possibly misconstrued because it did not expressly address the continuing role of American Petroleum Institute (API) as the administrator and contracting entity for the Study.

On behalf of the BHRC, and myself I apologize for any confusion my letter may have caused others. We remain anxious to continue work on the Study and look forward to making progress in this area. In that regard, I understand API will be in contact with the appropriate parties.

Sincerely yours,

Patsy Clegg
Chair, Oversight Committee
Shanghai Health Study
