Mr. and Mrs. T. A. Work of Monterey, is working for her commission in the WAVES at midshipman's school, Smith college, Northampton, Massa- chusetts. She took her prelim- inary examinations in south- ern California, where she en- listed, and arrived at Smith a few days ago.

Mrs. Kerr, whose home has been in Reno, Nevada, since her marriage last year to the well-known British mining- man, has her husband's stamp of approval on her decision to join the WAVES. Government demands upon the mining in- dustry require Mr. Kerr's con- stant attention to his mines, which are located in wild and isolated country more than 100 miles out of Reno, and Betty is hardly the type to be inac- tive when her country is cry- ing for her services.

She is the sister of Staff Ser- gent Frank Work, U. S. Army Air Corps, who is on duty at the Trade Test office of the Salt Lake City Air Base and taking a great deal of interest in his work. Frank has been home on furlough for the past week.
