

Coffeyville #30

May 6th, 1953

H. L. Nagson

Quark Zinc Oxide Smelter
Coffeyville, Kansas

Mr. Coolidge has referred to the writer your letter of May 1st together with the two pictures. I don't know whether or not we have duplicates of these in our files, but will check into this when I get a chance and in the meantime thanks for your interest and for trying to be helpful to us.

We are trying to accumulate things of this nature dealing with the past history of our Company.

INTER-OFFICE LETTER

FROM Coffeyville

OFFICE

DEPT.

FOR Cleveland

OFFICE

DATE May 1, 1953

MR. S. B. Coolidge

SUBJECT

ANSWERING LETTER OF

DICTATED BY

MAY 4 1953

*ASK
you may be interested
in looking*

Enclosed you will find two pictures of the plant that were taken in the early 1900's. The postmark on the postcard that this picture was taken from showed a date of 1910.

We thought you might like to have a couple of these pictures for historical purposes.
