re: AROCLOR 2-yr. Rat Feeding Studies:
Histopathological Studies

Dear Joe:

I am forwarding to you a copy of the histopathological findings on the slides from the 2-year rat studies you performed on AROCLOR 1242, 1254 and 1260. The evaluation was done by Dr. Pour at the Eppley Institute for Cancer in Omaha, Nebraska. I have not included the photographs which he refers to in his text.

I thought you would be interested in Dr. Pour's observations.

Sincerely,

George J. Levinskas, PhD
Mgr., Environmental Assessment
and Toxicology
