Mr. R. A. Wells
Turner Brothers Asbestos Co. Ltd.
Rochdale, England

Dear Ronald:

With reference to your letter of February 12, we have no objections to your quoting the results contained in our report No. 456-2506, which deals with a study of the dust generated by brake lining wear. We do not, of course, wish to have the report itself issued, but reference to the information as a private communication from Johns-Manville is satisfactory.

I plan to attend the Cardiff meeting on "Symposium on Tissue Response to Asbestos" April 7-9, and I hope you will be there. I would like to discuss the status of a number of asbestos environmental studies in the U.S. with you.

Best regards.

Sincerely yours,

P. L. Funderick
Vice President for
Research and Development
