Subject: Conference call needed - Consortium form decision

Importance: High
To all,

Please respond ASAP with your availability for a call either on Friday of this week, or Monday or Tuesday of next week (8/10, 8/13 or 8/14). If you are not available for a specific date, indicate if a proxy may be available.

We need to schedule a conference call to discuss a decision on the form that the consortium will take: either an entity funding subscription research under API, or as a self-incorporated entity which hires API to perform administrative duties. This issue was the topic of a memo from John Wagner which was sent out last Friday in an e-mail from me, and is now posted to the Consortium Web site (access information below). Additional information on the cost implications for each option is being developed and will be distributed as soon as it becomes available.

Please also note the e-mail list server address above. This address will send an e-mail to all members of the Oversight Committee roster. Similar e-mail lists have been developed or are being developed as noted below.

- Technical Committee (active)
- Communications Committee (active)
- Principal Investigators (active)
- Scientific Review Panel (future)
- Ethical Review Panel (future)

The e-mail addresses for these list servers will be posted to the consortium Web Site soon:
