NEW YORK, N.Y.

July 11, 1934

RECEIVED

JUL 12 1934

Norristown Mag. & Asb. Co.

Mr. A. K. Burgstresser, President
Norristown Magnesia & Asbestos Company
Norristown, Pennsylvania

Dear Mr. Burgstresser:

Will you please advise at your convenience just what manufacturers are now manufacturing flexible range boiler jackets under license with your company? Our last advice on this subject was that the Carey Company and Johns-Manville were the only two Licensees, but that you expected Keasby & Mattison and other manufacturers to accept a license within a short time.

Your usual prompt reply will be greatly appreciated.

Very truly yours,
JOHN'S-MANVILLE SALES CORPORATION
