GENERAL TRADE SALES DEPARTMENT

Dec. 1, 1941

Bulletin No. 27

Subject: Discontinuing Sale of
GSP WHITE LEAD AND ZILCO

The priority placed on pig lead sometime ago has made it impossible for us to obtain sufficient lead carbonate to continue the manufacture of Zilo and GSP White Lead in Oil. It is, therefore, necessary to announce the discontinuance of both lines at least temporarily.

Both Zilo and GSP White Lead will be reinstated whenever the raw-material situation permits, and in the meantime our remaining warehouse stocks should be used to supply only the immediate needs of authorized dealers and S-W stores.
