SUBJECT LIGHT ACOUSTICAL PLASTER

ANSWERING YOURS

DICTATED BY O. J. Fly, Jr.

cc: M. M. Powers - Akron
C. E. Abbey - Ardmore

PLAINTIFF'S EXHIBIT

GP-2154

Under date of August 18th, Mr. Abbey wrote to me as follows:

"RE: Bags for Export

We have been asked by the Export Sales Office whether Light Acoustical Plaster could be sold in export and if so, whether the bag we normally ship the material in would be satisfactory for export shipment. Can you or Mr. Powers tell me whether the 40# 3 ply bag we are using would be satisfactory or whether we should ask for an additional covering to protect that bag, or whether we should get a special bag for export shipment."

As this question should more properly be directed to you, I request that you advise.

Ray D bag -
1/40 lb - 1/90 AB - 3/40 lb - 1/60 lb

LIGHT ACOUSTICAL PLASTER

M. M. Powers

cc: Mr. C. G. Shuttleworth - Paoli ✓
Mr. O. J. Fly, Jr. - Ardmore

We concur with Mr. Shuttleworth's comments contained in his letter of August 20 wherein he states that the standard bag is not of sufficient quality to handle Light Acoustical Plaster for export.
