

JOPLIN - Research

Mr. Paul Whitford

Dear Paul:

Attached are the National Paint, Varnish and Lacquer Association Recommended Precautionary Labels. We would like for you to keep this information at Joplin and if we have to answer any questions from our field men we will refer the questions to you.

In so far as we are concerned, none of our products fall under the Federal Act which is concerned with materials suitable or intended for household use. The labels which we have on our containers to meet certain state laws do not fall under the Act which these labels do.

Very truly yours,

D. R. Carter
