VISTA

February 4, 1991

David L. Fredrickson
Chemical Information Manager
S. C. Johnson, Mail Station 212
Racine, WI 53403-5011

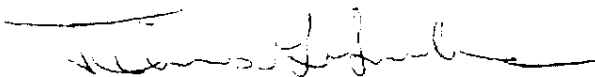

Dear Mr. Fredrickson:

This memo is in response to your request for information regarding the presence of California Proposition 65 listed chemicals in Vista's C-560 Slurry and Alfonic®1412 A.

Based on the analytical information currently available to Vista and our knowledge of the processes used to produce these products, we believe the following to be true.

Vista C-560 Slurry contains no detectable quantities of Proposition 65 listed chemicals. Vista ALFONIC®1412-A does contain 1-4 dioxane in variable quantities. Product testing indicates the amount is typically less than 300 ppm but may exceed that concentration on occasion. This product also contains ethanol, but not as specifically listed by Proposition 65.

Sincerely,

Thomas G. Grumbles, C.I.H.
Manager Environmental Affairs
