Medium and Low Temperature

*complies with (NSF) National Sanitation Foundation Standard No. 7

MANUFACTURERS
NOTE:

Send us blueprints of your evaporator and condenser requirements for quotation. Please indicate delivery requirements.

PEERLESS of AMERICA, Inc.

Manufacturers of Refrigeration and Air Conditioning Coils Since 1912

5800 N. Pulaski Road • Chicago, Illinois 60646

THE **American**
WARMING AND VENTILATING, INC.
1017 SUMMIT ST. • TOLEDO, OHIO 43603
PHONE 419 • 243-7151

Custom Made "American Way"
**QUALITY AIR
CONTROL EQUIPMENT**

**WEATHER
LOUVERS**
extruded and
fabricated,
standard and
architectural
designs

Durably made and expertly engineered for fast, trouble-free installation and low-cost maintenance. The very best. Fixed, manual or motor operated adjustable blades. Eleven different types.

Illustrated: NEW all-purpose water repellent Type LW-P-13131 for face velocities up to 670 fpm.

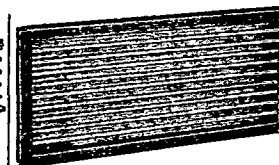

PENTHOUSES

extruded and fabricated,
standard and architectural designs

Ideal cover for air conditioning, heating and ventilating equipment, elevator towers, other roof additions... built-in doors, lowered or panel type, optional. Also, 4, 3 or 2 sides with inside screened or blanked off with insulating material if desired. Choice of 2 blade designs.

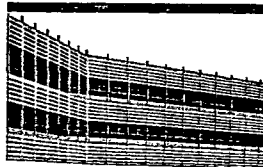

Illustrated: Architectural Type PL-P-1535 extruded with "J" type blade.

DOOR LOUVERS
extruded and fabricated,
stationary and adjustable

Primarily used as air return grilles for circulation of air in offices, closets, storage rooms, toilet facilities, etc., including models for X-ray and dark room use. Fusible link for automatic closure in case of fire.

Illustrated: Adjustable LD-P-1602 series with extruded aluminum frame and blades.

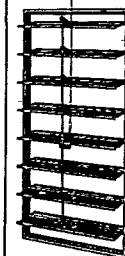

SUN LOUVERS

extruded and fabricated,
standard and architectural designs

Three styles: canopy, vertical and horizontal blade. Protects from direct rays of sun and incident weather without obstructing window view. Fixed, manual or automatic self-adjusting blades.

Illustrated: Horizontal stationary blade Type LS-P-1201.

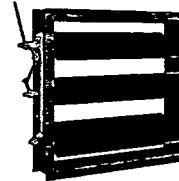

**FIRE
DAMPERS**

rugged, versatile
with certified ratings

Single or multiple blades for rectangular, square or round ducts. Finest materials for precision control and years of reliable service. Twelve different types, including UL approved models.

Illustrated: Type DAF-P-801 — instant closing and locking action.

AIR CONTROL DAMPERS
horizontal or vertical blades

Nine ruggedly built models for long, trouble-free service. Side stops, extended shafts, quadrant, motor, manual operators, etc., furnished where required.

Illustrated: DAA-P-1145 heavy duty process or breaching damper.

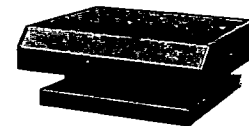

**WALL AND
CEILING SHUTTERS**

quiet, maximum weather protection

Five types of wall shutters in galvanized steel or aluminum frames for velocities 1800-3000 fpm. Four A+ styled ceiling shutters with extruded aluminum or steel frames for velocities to 2500 fpm. Motor, manual and automatic models.

Illustrated: SHW-P-200 automatic wall shutter.

ROOF VENTILATORS

weatherproof in three
basic styles

All units made for fast, easy installation. Birdproof screening furnished upon request. Painted for you in commercial type colors. Special designs may be ordered.

Illustrated: Type VM-P-2070 architecturally styled, curb mounted unit.

IMPORTANT

"American Way" weather louvers are backed by university certified water penetration tests. No other manufacturer has this vital data. Other "American Way" products are undergoing similar type field testing to ensure you of the very best in Quality Air Control Equipment.
