ALBERT C. CLARK
VICE PRESIDENT
TECHNICAL DIRECTOR

May 9, 1975

MAY 12 1975
F

Mr. Warren S. Ferguson
Allied Chemical Corporation
P. O. Box 1057R
Morristown, New Jersey 07960

Dear Mr. Ferguson:

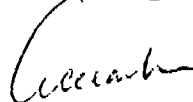

The computation of each company's share in financially supporting the Vinyl Chloride Research Project is based on data we received from the companies involved stating their published capacities. However, since this information was obtained over one year ago and many new participants have joined the group since then, it is felt the data we have may no longer be accurate.

Accordingly, we request that the attached form be completed indicating your company's most recently published production capacity for vinyl chloride and polyvinyl chloride.

The references MCA uses most frequently to check capacity ratings are Stanford Research Institute's "Directory of Chemical Producers" and "Oil, Paint, and Drug Reporter" (now "Chemical Marketing Reporter") profiles. Kindly indicate which one you are relying on. If other references are used, please attach a copy of the appropriate page to your reply, and if the source is not apparent from this, it should be supplied separately.

Your cooperation in responding by June 2 to update our records promptly would be greatly appreciated.

Sincerely,

ACC:etv

Attachment (in duplicate)

ASI 000014762

Please complete and return one copy by June 2, 1975 to:

Mr. Albert C. Clark
Manufacturing Chemists Association
1825 Connecticut Avenue, N.W.
Washington, D.C. 20009

My company's most recently published capacity is:

_____pounds/year vinyl chloride monomer

_____pounds/year polyvinyl chloride

Reference:

_____SRI - Directory of Chemical Producers

_____OPD (Now "Chemical Marketing Reporter") profiles (date_____)

_____Other, as follows:

Signed_____

Name typed_____

Title_____

Company_____

Address_____
