Subject: RE: WOTUS Update- Call Opportunity

We are very concerned about several re-registrations that are currently taking place, including several pyrethroids, phosmet and several neonicotinoids.

Regards,
Gary

I am a utility player. Is there a specific issue you are having?

Good afternoon Tate,

What areas will you be working with? While WOTUS is important to us, so are pesticide issues. Will you be dealing with them?

Regards,
Gary

Subject: WOTUS Update- Call Opportunity

Hi there!

Knowing of your industry's interest in this important issue, I wanted to extend an opportunity for a quick phone update and also a chance for me to introduce myself as one of your liaisons at EPA. Feel free to give me a shout.

202-564-1460 is my direct.
