DESTROYS PESTS! SAFE, SURE, LONG-LASTING

For the first time, a DDT insect killer with a synthetic resin base! Pestroy DDT Coating! Trust the world's largest insecticide makers to bring you such a wonderfully effective DDT formula which you can use with absolute safety. You brush on Pestroy DDT Coating. Whisk it over areas where insects gather—screens, garbage pails, plumbing and the like. It goes on quickly, easily... does away

with harmful spraying, contaminating fumes. Pestroy DDT destroys pests days, weeks, even months after application. Its synthetic resin base locks Pestroy DDT to every surface... keeps it on its insect-killing job. Pestroy can neither brush off nor blow away. Yes, Pestroy is a triumph of insecticide science. Only combined seven company research could develop so great a scientific marvel.

Pestroy DDT Coating 69¢ pt.
Pestroy 10% DDT
Activated Powder 39¢ 3 oz.

How Pestroy Kills and Keeps Killing!

Pestroy DDT Coating will kill insects days, weeks, even months after it's applied. For as Pestroy Coating dries, its DDT content rises to the top where it forms a closely-knit crystalline film. This lethal DDT film is bound to the surface by Pestroy's special new-type synthetic resin. It kills insects that touch it. Pestroy DDT is absorbed through insects' feet. It attacks and cripples nerves, causes certain death.

DESTROYS PESTS! SAFE, SURE, LONG-LASTING

For the first time, a DDT insect killer with a synthetic resin base! Pestroy DDT Coating! Trust the world's largest insecticide makers to bring you such a wonderfully effective DDT formula which you can use with absolute safety. You brush on Pestroy DDT Coating. Think it over areas where insects gather—screens, garbage pails, plumbing and the like. It goes on quickly, easily... done away

with harmful spraying, contaminating fumes. Pestroy DDT destroys pests days, weeks, even months after application. Its synthetic resin base locks Pestroy DDT to every surface... keeps it on its insect-killing job. Pestroy can neither brush off nor blow away. Yes, Pestroy is a triumph of insecticide science. Only combined seven-company research could develop so great a scientific marvel.

How Pestroy Kills and Keeps On Killing

Pestroy DDT Coating will kill insects days, weeks, even months after it's applied. For as Pestroy Coating dries, its DDT content rises to the top where it forms a cloudy-film crystalline film. This lethal DDT film is bound to the surface by Pestroy's special new-type synthetic resin. It kills insects that touch it. Pestroy DDT is absorbed through insects' feet. It attacks and cripples nerves, causes certain death.
