

1 program, we find that production workers exposed to
2 dust are given X-rays once a year and for all other
3 employees once every two years.

4 X-rays are sent to Dr. Trido at Saranac Lab
5 for interpretation. There has been no reported cases
6 of either silicosis or asbestosis at this plant. J.M.
7 Robinson.

8 MS. TOSTANOSKI: Thank you.

9 MR. IGNATOWSKI: You are welcome.

10 The next is Exhibit Number OI-1065, Saranac
11 symposium, 6th, Saranac Lake, New York, 1947.

12 It is edited by Dr. Arthur J. Vorwald.
13 Pneumoconiosis. Leroy U. Gardner, Memorial Volume.

14 On page 595, it indicates Mr. Willis G.
15 Hazard of Owens-Illinois Glass Company, Toledo, Ohio,
16 as one of the participants in the 6th Saranac
17 symposium.

18 THE COURT: It will be admitted into
19 evidence.

20 (Whereupon, Plaintiffs' Exhibit Number
21 OI-1065 was received into evidence.)
