Dr. R. A. Kehoe
University of Cincinnati College of Medicine
Cincinnati, Ohio

Dear Dr. Kehoe:

A friend of mine here is having suit brought against him by a former employee who claims to have acquired a lead neuritis as a result of washing his hands in gasoline (not ethyl) containing tetra-ethyl lead. I am unable to find any case reports of lead poisoning occurring in this manner and will be very grateful for any information you may give me.

Kindest regards and best wishes, I am

Yours very truly,

JCM/vh
