

GUARDIAN
SPIRAL-WOUND GASKETS

easy to store...

easy to identify

No more fumble, fret and fume searching for the right spiral-wound gasket. Guardian Gaskets in standard sizes now come in convenient packages of 5, 10 and 25. Size, materials, and pressure rating all clearly marked. Easy to select at a glance. Store neater, too! A first from Garlock.

But, you may say, how about the gaskets themselves? You can't beat 'em! Guardian Gaskets are quality-made to handle the toughest pipe sealing jobs. Rigidly inspected at every step. Their "V" metal plies with proper fillers react automatically to variations in compression, internal pressures, temperature changes. Seal perfectly. Ideal for long-time service in

pipng systems in chemical processing, petroleum refining, pulp, paper, and power generating plants.

And, you can get immediate delivery of standard Guardian Spiral-Wound Gaskets from your nearby Garlock warehouse. You can even get immediate, on-the-spot quotations on specials from your Garlock representative. Ask him about this exclusive service, and why it pays to GO GUARDIAN all the way.
