Re: William Price
WC89-1364

Dear Ms. Litko:

This letter will serve as our report regarding the above captioned individual. Our statement for services and expenses incurred in connection with this assignment is also enclosed.

Per your instructions, an attempt was made to determine if the subject William Price would be physically active over the September 30th weekend. Information was obtained from a source indicating that William Price was planning to cut his grass on the weekend. Mr. Price indicated through a source that he was going to cut the grass on Saturday or Sunday depending on the weather. He indicated he had one-half acre of land which he had cut last week.

Acting upon this information surveillance was instituted at the Price residence located at 2848 King Drive, North Kingsville. Surveillance was instituted at 8:10 a.m. at which time the home appeared to be closed up and the grass also appeared to be freshly cut. Dew was observed on the lawn which would indicate that it had most likely been cut the prior day. If the grass had been cut on Saturday morning prior to surveillance it most likely would not have dew on it. Surveillance was maintained until 9:50 a.m. at which time no activity is noted and it is discontinued.
