NOT COME FROM PPG FILES

Dear Dr. Holstein:

We have received a notice from R. C. McPherson, Director of Personnel, Pittsburgh Corning Corporation, concerning the availability of management to meet on the monitoring program that we have proposed which would cover individuals exposed to asbestos in the Port Allegany plant.

Company people would not be available until March 24th. We have, therefore, agreed to convene this meeting at 1:00 P.M. on March 24th. The meeting will be held at a location yet to be arranged but near the Pittsburgh airport. We are, of course, hopeful that both you and Dr. Selikoff will be able to attend. In addition, we would appreciate it if Sheldon Samuels could arrange his schedule to be with us.

I will advise you later concerning the exact location of the meeting but I did want to alert you as early as possible concerning the date of the meeting.

Very truly yours,

GMP/fbo

George M. Parker
International President
