SUBJECT 4th Quarter Competitive Safety 1984 SHAC
& Housekeeping Inspection - Methanol Inspection Team
REFERENCE File
TO : R. A. Hernandez - 0A-2

Methanol was inspected January 26, 1984 and received an overall rating of good. Specific items on safety & housekeeping are as follows:

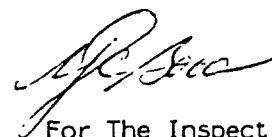

Safety Items

- Safety light out above safety shower near control room.
- No breathing hose in emergency cabinet near North end of area.
- No safety chains on chain operated valves above E102, P407-1, C602, C101.
- January safety meeting was not held or scheduled as of 1/26.
- Several safety showers were not working.
- Several valve stems need protectors.

Housekeeping Items

- Truck station messy.
- Pipe rack and scaffold storage area need attention.
- Oil cabinet near drum storage is messy.
- CED construction site is cluttered.
- Area maintenance shop needs attention: no face shield in box near grinder, clutter on storage cabinets, shop messy/cluttered.
- Housekeeping in the unit was good.

Please respond to these items to J. G. Trafton with a carbon copy to me for SHAC by 2/21/84.
