Re: OSHA's Label Requirement on MK-3

cc: R. L. Junker
Tom Feit

Dear Harry:

Bob Junker will probably write you in more detail but we did have our first OSHA inspection at Dallas and due to your good help we came out very well. One of the things that the inspector mentioned was the lack of a label on our Mono-Kote bags warning that they contained asbestos. Would you or Tom Feit please advise us on this as we are still using M-K 3.

Sincerely yours,

RBM:mc

Mike Moran
