

LWO-2816

Objective: We have been asked by Chrysler to participate in a Los Angeles Traffic Test starting January 12, 1987. The vehicles involved are "C" and "Y" bodies for 1989 MY. Bendix 7163 failed and consequently Chrysler is looking to Abex and 916-46Q3 to solve the problem. The attractive part of the offer is we only have to supply samples and a driver. Chrysler will furnish the car.

Assigned to: W. J. MacIntosh; Sales Contact: P. E. Baert

LWO-2816A

Objective: The objective that is listed under LWO-2816 applies to this work order with the following addition: This program has been expanded to possibly three tests as covered in Paul Baert's memo of January 8th and 6th which includes Chrysler's test matrix. The first three tests are those requested of Abex.

Assigned to: W. J. MacIntosh; Sales Contact: P. E. Baert

LWO-2817

Objective: We are required to run 5,000 miles of Detroit City Traffic testing as part of our participation in the Ford MN-12 program. Testing will begin in January. Bendix is administering this program for Ford. Bendix has advised they are modifying the procedure and will furnish a copy soon.
