WARNING LABEL FOR ASBESTOS CONTAINING INSULATION PRODUCTS

The following is a suggested revision for a precautionary label which would be attached to Unarcoboard manufactured at Bloomington.

By copy of this correspondence I am asking Mr. Robert Logan of the Corporate Legal Staff to review this warning label.

The suggested label reads:

WARNING

This product contains asbestos. Inhalation of asbestos in excessive quantities over long periods of time is harmful. Avoid breathing the dust. If adequate ventilation control is not possible wear respirators approved by the U.S. Bureau of Mines for pneumoconiosis producing dusts.

If you have any questions or comments please let me know.
