H. Dahlstrom BRUSSELS

R. Munch is proceeding to gather information to design and set up a capacitor test lab. C. Coleman has urged this step for some time in Europe.

In view of our effort to remain competitive with Prodelec and to match the Prodelec/La Cellophane combine in polypropylene film, I urge that you make plans for a capacitor test lab in U.K.

I will also ask Ralph Munch to communicate his thoughts on the subject to you.

Sincerely,

W. R. Richard
