Subject: December 19, 2023, EPA Inspection at Sanborn Lane, Reading, Massachusetts

Dear Mr. Hall:

On December 19, 2023, the U.S. Environmental Protection Agency ("EPA") performed an inspection at Sanborn Lane regarding compliance with the National Pollutant Discharge Elimination System program of the Clean Water Act. A copy of the inspection report is enclosed with this letter. As we discussed on site, the Low Erosivity Waiver does not apply to this site and will thus be terminated. Information related on permit applicability and how to obtain coverage under the 2022 Construction General Permit is available at: (<https://www.epa.gov/npdes/getting-coverage-under-epas-construction-general-permit-waivers>). Please continue to work closely with the town of Reading to properly manage stormwater erosion controls at your site.

If you have any questions, please feel free to contact Stephanie Tougas via email tougas.stephanie@epa.gov or 617-918-1798. Legal issues may be directed to Jeff Kopf, Senior Enforcement Counsel, at (617) 918-1796.

Sincerely,

Newton Tedder, Acting Manager
Water Compliance Section 1
Enforcement and Compliance Assurance Division
