DOCUMENT DESCRIPTION: Memo

Hopeman Brothers, Inc.

(1 of 1) Three

TO: A. L. Peter

FROM: M. Y. B. C. Hopeman

We are having problems with the dust created by sawing the Marielle panels - such dust is dangerous to the lungs.

I would like you to look into either a saw with a vacuum dust collector or some other method of preventing this dust.

Also, you might be able to find a saw blade which creates less dust due to its thickness or tooth edge.

B. C. H.
