November 21, 1972

Mr. C. B. Mallory
Works Manager
Brakeblok - Winchester

Subject: Asbestos Counts

Referring to our previous letter of November 8, 1972, the attached sheet lists the remainder of the asbestos samples which exceeded the permissible limit of 5 fibers per ml during the survey of October 2 to 6, 1972. Operator locations, work shift, and employee names are also listed.

Please note that six of the samples exceeded the ceiling "C" limit of 10 fibers per ml.

A full report covering this portion of the Winchester sampling program will be forwarded shortly.

If you have any questions regarding these samples, please contact me.

A handwritten signature in cursive script, reading 'M. David Gidley'.

M. David Gidley
