A recent publication put out by the National Paint, Varnish and Lacquer Association indicates there are proposed bills in Congress that will limit the use and sale of lead-containing paints and also the lead paint that is now on the surface. Since these are very far reaching, I have contacted Senator Walter Mondale who is on one of the committees involved and asked him if he would meet with me and anyone else who is interested in this type of legislation to discuss the pending legislation.

It would be well for him and for us to get together so that he will be in a better position to know what he's talking about when he votes, and for us to present our case concerning the far-reaching effects that such legislation would have.

As soon as I have an appointment set up with Senator Mondale, I will send out a letter to let each of you know when the meeting will be scheduled, if it is scheduled, so that as many as possible can meet with him and talk this over.

Yours very truly,

STEWART PAINT MFG. COMPANY
