Great thanks. We plan on 40-50 people who will be environmental managers from aggregate producer companies. I will send you a schedule once it's been shuffled.. All the speakers will be from within the aggregates industry or consultants/lawyers that help the industry.

Hi

Sounds good, thank you. She'd speak for 5-8 minutes and open it up to questions; we will plan for her to be there for 45 minutes. We will keep in mind the particular interest on WOTUS and check the docket to be aware of reform suggestions folks in the audience may have.

When the time is ripe, we will have just a few questions:

- About how many people will be attending the meeting?
- May we see the agenda and the list of other speakers and the topics they will address?
- Will this be closed to press?

Thanks again and take care.

Sure I will make it for 2 pm. We are interested in hearing about general regulatory reform efforts at the agency, in particular WOTUS. If she has a standard presentation she has given for the Chamber or like groups that is fine. How long should I schedule?

Hi

Very kind of you. May we take the 2:00 spot? I'm copying Will who will reach out prior to the meeting to help ensure that we all have the agenda, logistics, and meeting expectations in mind and Samantha is prepared. Thanks again and take care.

Hi Robin, thanks for getting back with me. I have Samantha in the 10 am slot, but can easily move her to after lunch or whatever works best for her busy schedule. The other speakers will be there for the whole meeting so it's bother to put her in whenever works best. Is there a specific time that works best? Any time between 1-4 is fine for us.

Hi Emily,

I hope you are well. As it turns out, our Associate Administrator, Samantha Dravis, is glad to speak at the 9/28 meeting. Afternoon may be best but just let me know what works for you all. Thanks and take care.

Robin

We appreciate the effort that you at EPA are putting into fixing the Waters of the U.S. rule and general regulatory reform.

We are having a meeting here in Washington at the Liaison Hotel and wondered if you would be available to speak on September 28; our members are very interested in regulatory reform work at EPA. Please let me know if you have availability.
