**\*In Attendance**

The survey sheets from the asbestos usage survey were discussed. It was generally agreed that these are three major areas of immediate concern:

1. Brake lining research
2. Brake shoe changing in the garage
3. Chassis rolls in engine research (possible)

A summary sheet will be developed so that each representative can indicate asbestos sources and uses. (Attachment I and II)

An ad hoc committee was chosen to visit A. Anderson and the brake shoe research program to gather first hand information on this operation. A report will be presented to the full committee at the next scheduled meeting.

**Committee members:**

J. A. Brown R. C. Machen  
R. Quarles D. N. Rao

The next meeting is scheduled for May 8, 1980 at 3:00 p.m. in Room E-1124.

**AGENDA**

1. Ad Hoc Committee Report
2. Preliminary consideration of chromium.
