MARSHALL DEVELOPMENT LABORATORY RELEASE LETTER NO. 2152
752-LINE "DULUX" ENAMEL
(KITCHEN CABINETS, ACCENT FURNITURE & JUVENILE FURNITURE)

The proposal of this Release Letter is satisfactory from Wood Finishes Sales point of view and Wood Finishes Sales recommends approval.

These products are designed to replace two-coat lacquer systems with a one-coat enamel. In addition to better apparent build, 752-Line enamels provide the improved resistance properties of a conversion coating.
