In the shadow of the "cheap" house paint can

Don't let the low price on "cheap" paint fool you. Once you get in the shadow of the "cheap" paint can you will have a gloomy outlook. You may think the low price is saving you money. But your reward will be a bigger paint bill—an inferior job—a short-life job—and big repainting bills.

There is only one way to real economy in house paint. Use the best paint money can buy—SWP. It costs more per gallon—but much less per job and per year. Ask us to prove it.

GUARANTEED!

SWP is guaranteed to look better, last longer, cost less per job and less per year than any paint on the market.
