SHERWIN-WILLIAMS

PAINTS VARNISHES LACQUERS ENAMELS

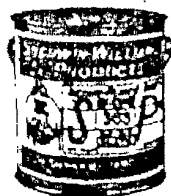

The Faith of Millions!

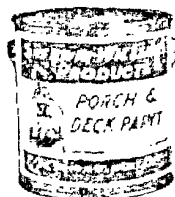

The millions of the world's six continents have grown accustomed to looking for the unmistakable warranty of worth in finishes for every conceivable surface—the world famous "Cover the Earth" trade-mark and the Sherwin-Williams name.

They know their property is safely protected and delightfully decorated with materials that are the standard of the world.

Just A Few Leaders From A Complete Line

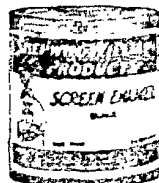

Quality through and through. Covers 800 square feet, two coats, per gallon—100 sq. feet, better than the average. Lasts five years and more. By far the most economical paint you can use on your house, regardless of price. Comes in 22 good colors.

A tough, enamel-like paint, made especially for porch floors and decks. The scuffing of heels, driving rains, hot sun, intense cold—none of these have any effect on Porch and Deck. Comes in suitable colors for its use. It wears and wears.

Called "Liquid Wall-paper", this fine flat wall paint MAKES the room. From its 14 beautiful colors, an endless number of delicate mixtures can be made. See the samples in the store of the tapestry-like effects of stippled Flat-Tone.

Made for screen wire and frames. An excellent preservative for your screens, either before you put them up or when you put them away for the winter. Makes them look new, too. No rust spots, no untidy windows. Comes in both Green and Black.
